📇 Portfolio   in LinkedIn

To leverage my technical expertise and creative, problem-solving skills in software engineering, web development, and UI/UX design to deliver efficient, user-focused solutions. I aim to contribute to innovative projects while continuously learning and adapting to new technologies and methodologies.

PROJECTS

Tiffinwala - Web Application

Developed a web app to streamline ordering and delivery of homemade meals. Connected customers with local home chefs and messes for fresh meals (subscription/one-time). Supported multiple cities with options for pure veg and non-veg meals.

Impressions Production- Web Application

Showcased a wide range of products including Precision Ball Pens, Synthetic Book Cover Rolls (Super, Silver, Gold, Transparent, Clear), Double-Sided Tapes, and Cellophane Tapes. Highlighted product features such as durability, reliability, and versatility for personal and industrial use.

Personal Portfolio - Web Application

Designed and developed a responsive portfolio website from scratch, starting with UI/UX design in Figma. Transformed the Figma design into a fully functional website. Followed a structured Software Engineering approach to ensure scalability, maintainability, and optimal performance.

EDUCATION

Walchand Institute Of Technology, Solapur   *Oct 2022 - Present*
